**SUBMITTAL OF CORRECTED DRAWINGS UNDER  
37 CFR § 1.84**

Enclosed herewith is one set (fifteen replacement sheets) of new, substitute drawings in accordance with 37 C.F.R. § 1.84. These substitute drawings are provided to replace the informal drawings originally filed with the application in grayscale, which the Applicant has determined were not accurately reproduced from the drawings originally filed when included in the electronic Image File Wrapper system by the U.S. Patent & Trademark Office (USPTO) and, therefore, may not be of such condition as to permit reasonable examination of the application, even though the drawings were reasonably accurately reproduced in U.S. Patent Application Publication No. US 2004/0236999. The substitute drawings are black and white drawings using solid lines of black ink. Applicant submits that these substitute drawings do not introduce any new matter. Applicant requests that these substitute drawings be substituted for the originally filed drawings.
